*ARPA Funding Opportunities and how should PHCSA entities apply for them. This is the American Rescue Plan Act – intended to stimulate economy and offset the negative effects of COVID – Pinellas County received \$\$\$ and they have set aside 10% for unincorporated Pinellas County – approximately \$19,000,000.00 – all other funds have been earmarked for County Projects – Projects must be committed by September of 2024 with finished by December of 2026. County wants funding to be administered by a third party. (This is similar to MSTU funding projects – one and done, not ongoing expenses) Project categories will be submitted for review and comments.*
