This new screening policy was also used on all existing employees and three employees were flagged. The HR Director discussed this issue with the Directors. The Directors are aware of the new policy going forward, but were advised to make a determination on how to handle the existing flagged employees. The Directors all submitted a signed Hold Harmless provision indicating that they agreed to the new hiring policy and are responsible for existing employees who were flagged. The HR Director will confer with the County to determine what the County’s policy is regarding existing employees that are retroactively flagged with a new background check policy after already being employed.**
